📍 manouba 🗓 27/10/1999 🌐 ahmed kechrid

A dynamic candidate in data science, I am driven by the desire to join your team for a position in data science or development. With a strong foundation in solving IT-related problems, I aim to further enhance my practical skills and actively contribute to your organization.

🎓 Education

Master's Degree in Data Science, <i>Institut supérieur de langues appliquées et d'informatique de béja</i>	2022 – 2024
Licence Degree in Software Engineering and Information System, <i>Higher Institute of Applied Languages and Computer Science, Béja</i>	2019 – 2022
Scientific Baccalaureate with a specialization in Computer Science	2019 manouba, tunisie

📁 Professional Experience

Software Development Intern, sierra bravo intelligence	03/2022 – 07/2022 tunis, tunisie
<ul style="list-style-type: none">• E-commerce Website Design with Digital Marketing Integrated as part of a final year project.• Agile Development and Deployment of High-Performance E-commerce Solutions.• Expertise in CMS Platforms: WordPress and Prestashop for dynamic websites.• Proficient in the MERN Stack for building modern and responsive web applications.• Advanced Full Stack Programming Skills enabling flexible and scalable technologies.• Final Year Project Successfully Transformed into a fully operational online platform.• Actively Participated in Website Development Projects, strengthening technical expertise.	

Bulgin tunisie, *Full-Stack Developer & Data Science Intern*

02/2024 – 06/2024

tunis, manouba

- **Design of a Data Analysis Platform for the Plastic Injection Department at Bulgin**, aimed at optimizing internal processes.
- **Advanced Web Development using React.js, Node.js, and SQL Server** to build an intuitive user interface.
- **Ongoing Improvement of Web and Software Development Skills** through practical project experience.
- **Creation of Production Dashboards using Power BI** for data visualization and performance monitoring.

Software Development, *Full-time*

11/2024 – Present

Tunisia

As a Software Developer at WKW Automotive, I am actively involved in the development of internal tools and systems to support business operations. My responsibilities include:

- Designing and implementing web applications to optimize company processes.
- Preparing and managing databases for data science projects, particularly in machine learning for prediction and classification tasks.
- Developing and integrate solutions within the company's URP (Unified Resource Planning) system.
- Contributing to the digital transformation of industrial workflows through innovative software and data-driven solutions.

Compétance

Data Science: Machine Learning / Artificial Intelligence / Data Mining / Data Analysis / Data Visualization Web Development: MERN Stack / WordPress / PrestaShop / Angular
Marketing: Implementation of digital marketing solutions (part of my final year project)

Languages

Français
Arabe

Anglais

Certificates

- entrepreneurial certificate from ATFE

Projects

Freelance

Successfully completed **over 3 websites using WordPress**, **1 website with the MERN stack**, and **1 e-commerce platform using PrestaShop**.

Developed a **mini data science project** to **predict energy consumption** based on a real-world dataset.
